

Bahamian Flag Mini Project

Set-Up Instructions:

- 1) Open up Greenfoot
- 2) Build a new java scenario – name it: Bahamian Flag
- 3) Change the World's size to 600 x 400.

Task:

- 1) In the `MyWorld` class constructor, use no more than 5 nested loops to create the following image:

- 2) This is the flag of the Bahamas. The colors should match (Cyan, Yellow, and Black) and match the image above.
